**RE: Regulatory Compliance of YUPO® Grades –**

AIFG, AIFR, AIFX, AISE, AISX, AIUE, AIUX, BLR, FEB, FGS, FLL, FPG, FPU, FPX, FRBW, HJG, HJX, ITE, ITX, IVF, IVTB, IZE, IZX, LIX, LJR, LOX, LSR, PKT, PRT, QJJ, RWS, RWU, SAR, SDI, SGM, SGP, SGS, TPRA, TPRB, UAIB, YPI

California Safe Drinking Water & Toxic Enforcement Act of 1986 (Proposition 65, list effective date August 11, 2023)

Consumer Product Safety Improvement Act (CPSIA)

Dodd-Frank Conflict Minerals Act

States' Toxics in Packaging Legislation (list effective date February 2021)

Canadian Environmental Protection Act of 1999 (CEPA) – DSL, NDSL, Batches 1 to 12, & Schedule 1 (list effective date May 12, 2021)

European Union's Restriction of Hazardous Substances (RoHS 3, EU Directive 2015/863)

European Union's Registration, Evaluation, Authorization & Restriction of Chemical Substances (EU REACH, EU Regulation 1907/2006/EC, list effective date June 14, 2023)

We have reviewed the above referenced environmental documents against the manufacture of the YUPO® grades shown above. These grades comply with these directives, in that, we do not intentionally add any restricted materials to our product, however, trace amounts of some substances may be present as residuals from our suppliers manufacturing process, such as catalytic reactions, or as impurities from base raw materials. Examples of some of these trace impurities are shown below. All impurities are well below established threshold values although we do not routinely analyze for these substances.

<u>Substance Name</u>	<u>CAS Number</u>	<u>Concentration</u>
Cadmium	7440-43-9	<1 ppm
Chromium	7440-47-3	<2.6 ppm
Lead	7439-92-1	<10 ppm
Mercury	7439-97-6	<0.2 ppm

Regarding Proposition 65, the law directs companies operating or selling products in California to provide a warning before exposing anyone to any chemicals set forth on a specified list of chemicals California has determined can cause cancer or birth defects or other reproductive harm. The list contains a wide range of naturally occurring and synthetic chemicals that are found in a wide range of products, including food, drugs, and common household products. Notable exceptions to the warning requirement apply if exposures to listed chemicals are below certain specified threshold limits, or if it can be demonstrated that there is no risk of exposure. As noted above, YUPO® products do contain trace amounts of several substances covered by the law. Although California has established Safe Harbor Levels (NSRL, MADL) for some of these substances, these levels apply to actual exposures, not the concentration of the chemicals in the products.

---

With regards to the Dodd-Frank Conflict Minerals act, Yupo Corporation America does not use any raw materials in our products that are covered under this regulation.

Additionally, we do not intentionally add any of these other chemicals of concern: phthalates, latex, BPA (Bisphenol-A), nanomaterials, perfluorocarbons (PFCs), or per- and polyfluoroalkyl substances (PFAs), perfluorochemicals, including perfluorooctansulfonate, and/or fluorotelomers.

This letter may be supplemented from time to time as individual regulations and standards are revised.

We hope this answers your concerns about our product. Feel free to contact us if you need any additional information.

Sincerely,

Lee Stickles  
Sr. Manager, Quality Assurance
